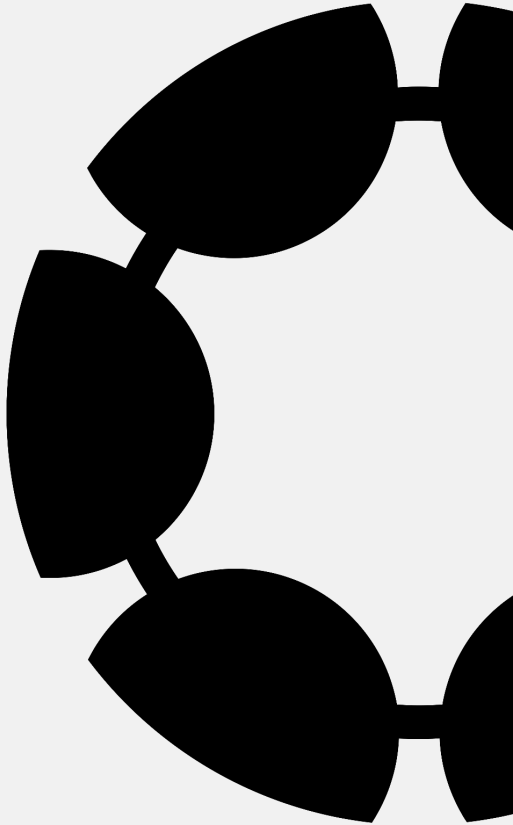
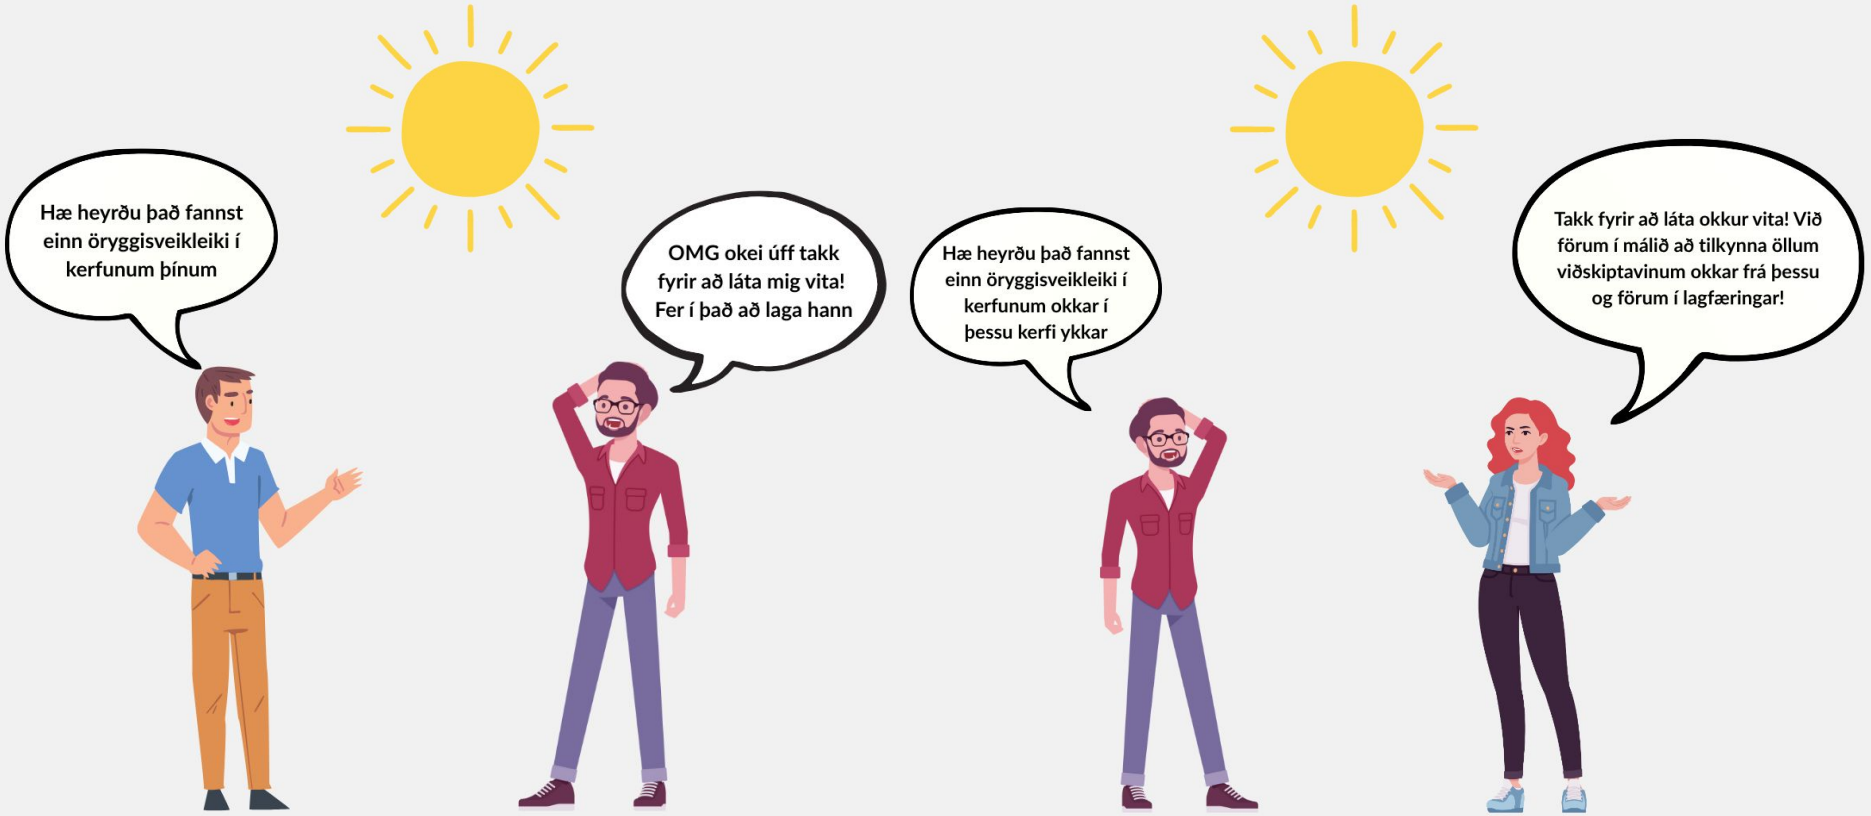
Ég læt þig vita af öryggisveikleika og þú kærir mig

Hörn Valdimarsdóttir



Hvaða rétt hafa fyrirtæki og stofnanir til að vernda sín gögn og almennings gegn birgjum og þjónustuaðilum?

Draumaheimur



Birginn

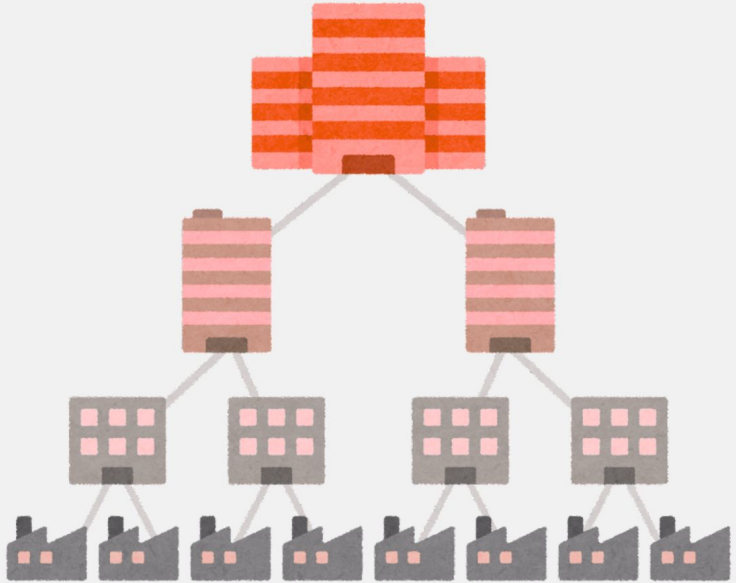
NOT

SO

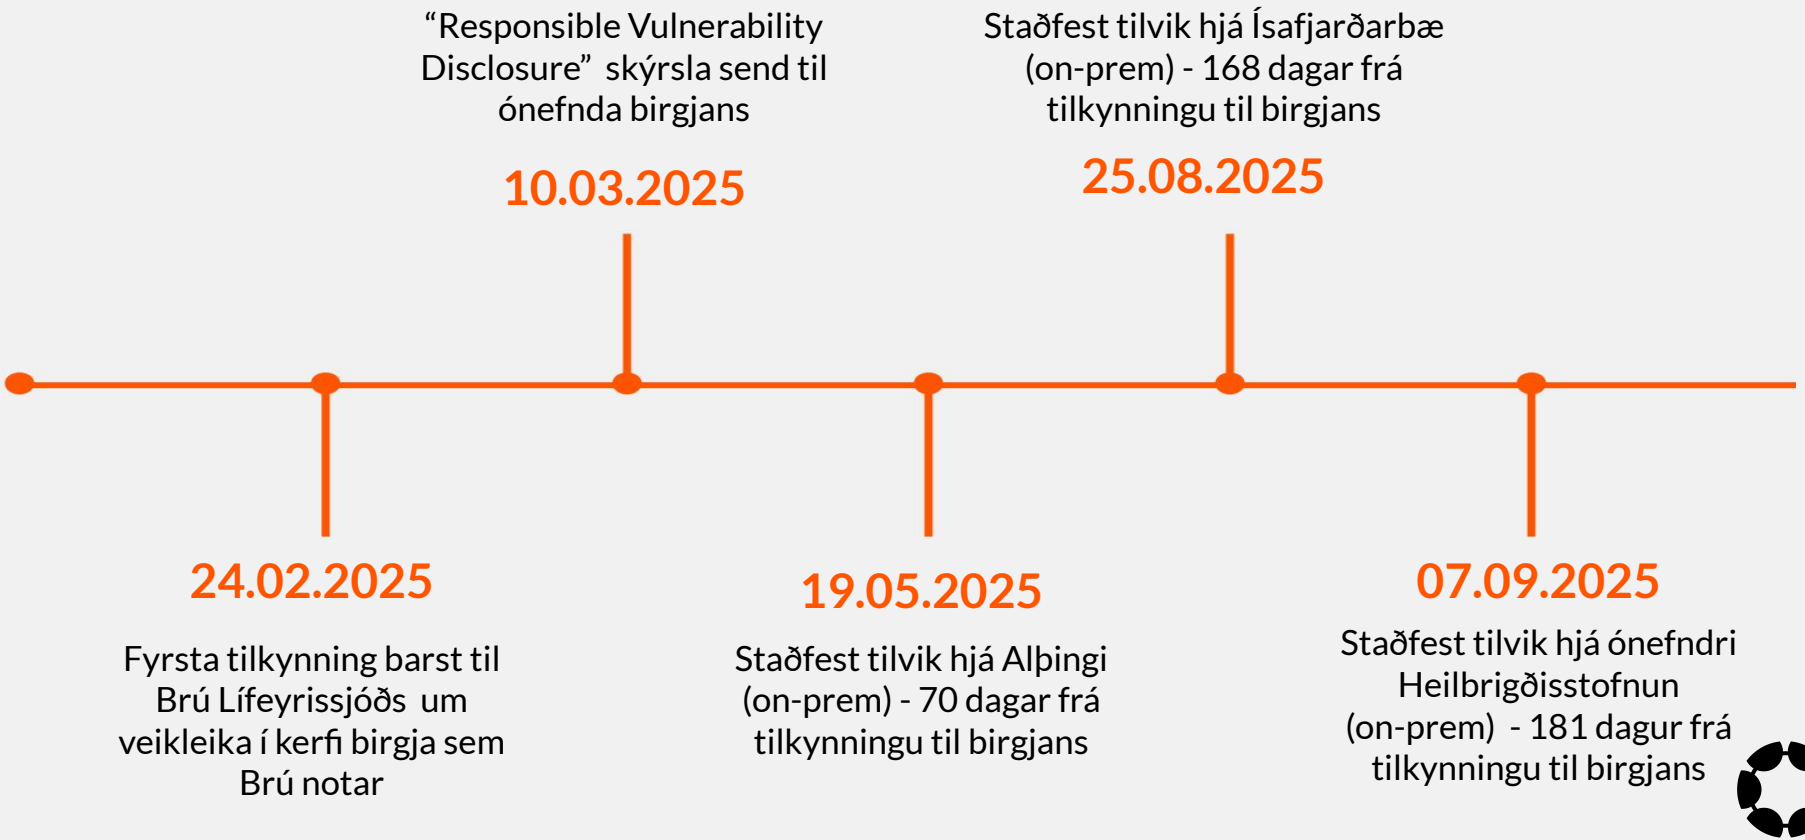
EASY

Hver eru vandamálin sem skemma fyrir heilbrigðri öryggismenningu?

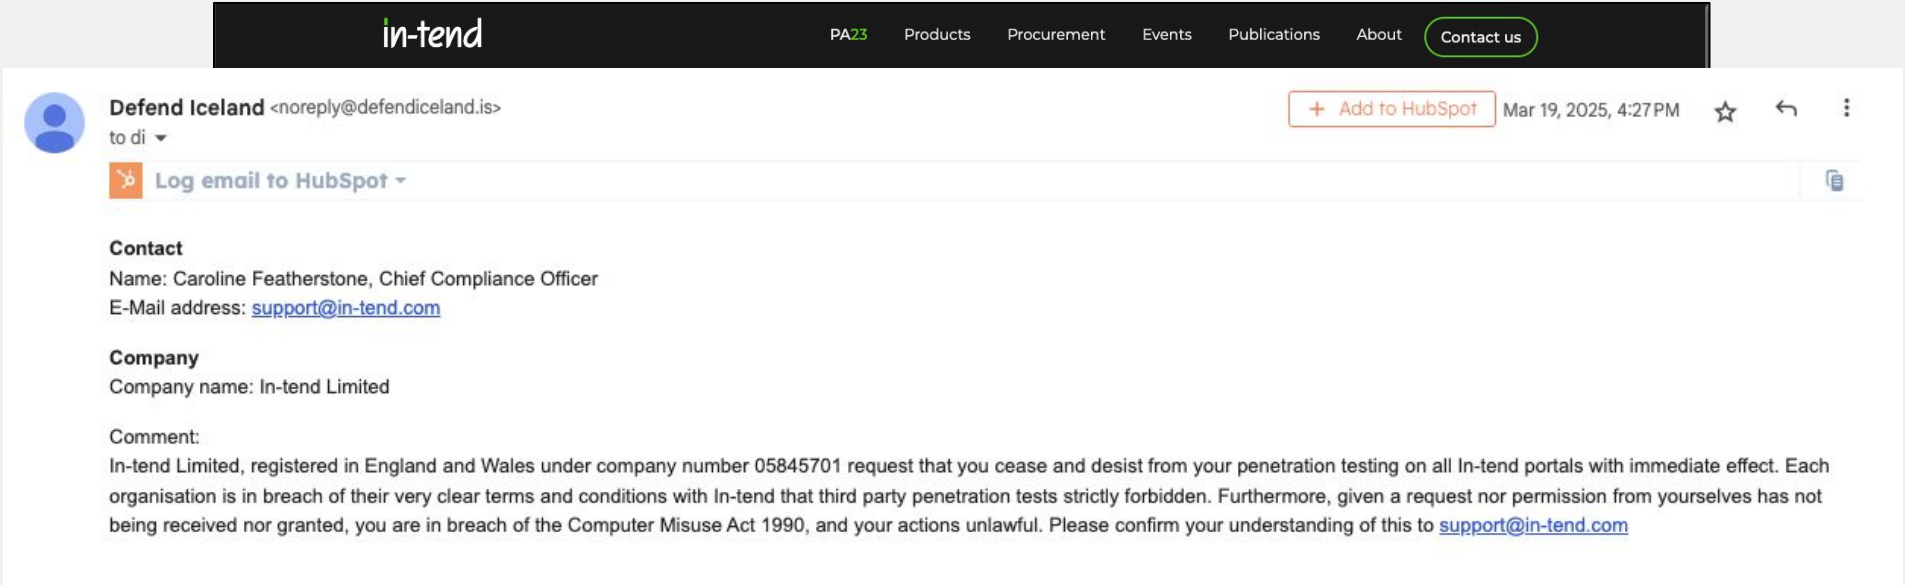
- Vanþekking
- Hræðsla/veikleikaskömm
- Veikleikaþöggun
- Skortur á skýru ferli sérstaklega þegar snýr að birgjum og þjónustuaðilum



Ónefndur íslenskur birgi - tímalína veikleika



Sumir bregðast einstaklega illa við tilkynningum



- CERT-IS veitti okkur stuðning gagnvart NCSC í Bretlandi
- Vonandi betri millivegur við tilkynningar á veikleikum sem snúa að birgjum

to me

Dear Theodor,

We are in receipt of your emails and the disclosure report.

We are disappointed at the approach which you have adopted and deeply concerned at your unauthorised access to our systems which could jeopardise our or our clients' data and which we consider to be unlawful and in breach of the Computer Misuse Act 1990 as well as placing our customers in breach of their contracts with ourselves. All of our rights are fully reserved in that regard.

That said, we have noted your comments and, on this occasion, we are happy to advise that any remedial actions detailed within the disclosure report are in the process of being, or have already been, addressed.

As the UK National Cyber Security Centre (NCSC) has adopted the ISO 29147 approach to vulnerability disclosure, and which In-tend Limited being UK based adhere to, you will appreciate that disclosing vulnerabilities after 90 days without knowing that the vulnerabilities have been fixed in full would not be acceptable and the NSCS may take this up on our behalf.

Therefore, in the knowledge that In-tend are undertaking fixes, we trust this satisfies the requirement of Defend Iceland and all your third parties, and that you will now confirm that you will not publicly disclose this, or any, vulnerability nor do so in the future given the solution we provide contains national Icelandic confidential information.

Please confirm within seven (7) days : your acceptance of In-tend's position on the remedial work and that no disclosure will be made without the express written permission of In-tend Limited. We look forward to hearing from you.

Kind regards

Caroline

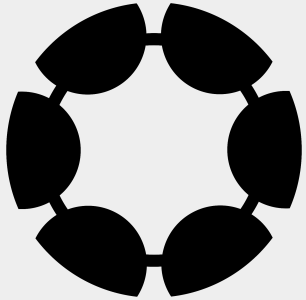
In-tend Ltd

Ábyrg öryggisveikleika birting



Veikleiki í vöru frá Birgja tilkynntur í villuveiðigátt viðskiptavinar. Veikleikinn bitnar á fjölda aðila á Íslandi sem væru auðvelt skotmark

CERT-IS fær tilkynningu og miðlar til framleiðanda sem býr til öryggisuppfærslu sem er komið til aðila sem veikleiki bitnar á

+90 dagar

Opinberar tilkynningar um veikleika í birgja frá CERT-IS?

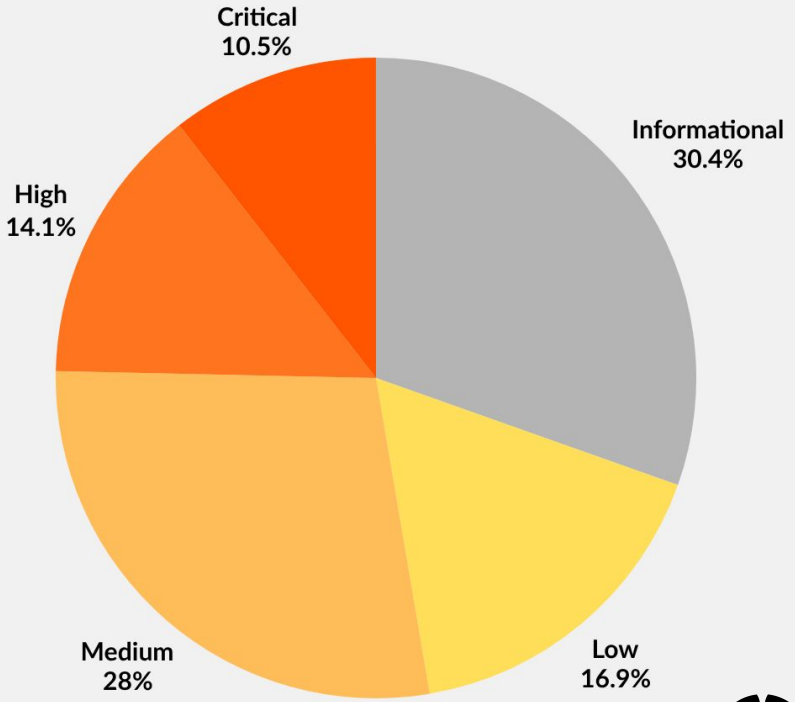
Viðskiptavinir

defend Iceland

Þetta er ekki það eina sem verður að breytast

Yfir 800 tilkynningar um öryggisveikleika í gegnum villuveiðigátt Defend Iceland

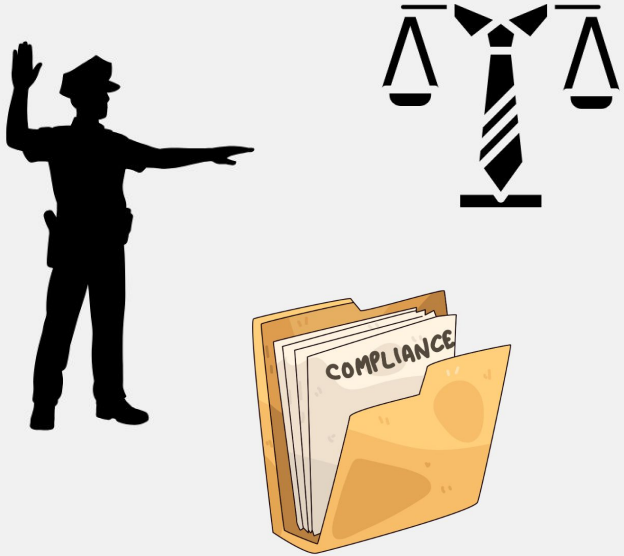
- 95% veikleika tilkynninga voru áður óþekktir veikleikar
- Alvarlegustu veikleikarnir gátu leitt til alvarlegra gagnaleka eða gagnagíslaárása
- Gríðarlegt tækifæri til að auka þekkingu og hjálpa öðrum að koma í veg fyrir samskonar öryggisveikleika með því að miðla þeim lærdóm sem verður til



Birting veikleika opinberlega eftir lagfærslur

- Engin hætta lengur og mikið tækifæri til að fræða aðra um mögulegar hættur sem gætu bitnað á þeim

- Veikleikakömm, feimni, ótti við eftirlitsaðila?



Vinnum saman að jákvæðari öryggismenningu

defend Iceland
